

Management B.B.A. Degree

Entrepreneurship

Entrepreneurship is defined as the creation of value by people and organizations working together through applying creativity, drive, and willingness to take what might commonly be viewed as risks.

Entrepreneurship at EKU is a risk worth taking!

Your success begins with an idea that comes to life through a plan. To execute your plan successfully, you need the right knowledge and skills. The entrepreneurship major is for those who have a desire to obtain basic business knowledge and skills related to starting their own business or managing an existing business – like a family owned business for example.

This major is primarily for students who either intend to start and/or manage their own business or plan to work as innovators in the corporate world.

Entrepreneurs are simply those who understand that there is little difference between obstacle and opportunity and are able to turn both to their advantage.

- Niccolo Macciavelli
