

Management B.B.A. Degree

Human Resource Management

Today, human resource professionals are being called upon to play a greater role in organizations than ever before. Global competition requires that organizations manage smarter and utilize their human capital more wisely than in the past, and human resources – once considered by some to be a “soft area” within businesses - now plays a pivotal role in achieving organization effectiveness.

Eastern offers one of the few HR programs in our region which permit students to gain a thorough foundation in human resource systems, principles, and policy, and to also have many opportunities to apply their knowledge and skills through realistic projects of the kinds that HR practitioners face in their jobs.

With the availability of co-op work experiences, we have a highly applied and relevant program that prepares our students for entry-level positions in the field. Students are encouraged to take the Human Resource Certification Exam, and their success rate confirms the sound preparation that our program offers.
